This consciousness remains only an objective possibility, always threatened by the seductions of the immediate consciousness. This makes the agency of the communist party a necessary condition for the revolution. Due to his criticism of bureaucracy, Lukács cannot endorse Lenin's idea of the completely rationalized organization of the state (Arato and Breines 1979: 154). In his political ...

Children's logic is based on their own personal knowledge of the world so far, rather than on conventional knowledge. For example, dad gave a slice of pizza to 10-year-old Keiko and another slice to her 3-year-old brother, Kenny. Kenny's pizza slice was cut into five pieces, so Kenny told his sister that he got more pizza than she did. Children in this stage cannot perform mental ...

People are too quick to accept conventional wisdom, because it sounds basically true and it tends to be reinforced by both their peers and opinion leaders, many of whom have never looked at whether the facts support the received wisdom. It's a basic fact of life that many things "everybody knows" turn out to be wrong."
